Standalone Solution Pricing

How It Works

We build custom AI solutions for your clients. You bring the client, we build the solution, you own it and sell it under your brand. We stay invisible and handle all technical support.

Process Overview

Phase	Details	Cost
Discovery & Scoping	Initial consultation to understand requirements	Free
POC	Working prototype for qualified prospects*	Free
Implementation	Build and deploy the solution	By Tier
Monthly Support	Ongoing maintenance and monitoring	By Tier

** Free POC for paying clients or prospects closing within 2 weeks*

Implementation Tiers

Cost depends on solution complexity. We scope each project and provide a fixed quote.

Tier 1: Simple Solutions

Implementation	\$300 - \$400
Timeline	3 - 7 days
Use Cases	AI chatbot, basic CRM, appointment booking
Monthly Support	\$300/month
Included Tickets	10/month

Tier 2: Mid-Complexity Solutions

Implementation	\$500 - \$700
Timeline	5 - 10 days
Use Cases	Chatbot + receptionist, CRM automation, booking + SMS

Monthly Support	\$400/month
Included Tickets	15/month

Tier 3: Complex Solutions

Implementation	\$800 - \$1,000
Timeline	10 - 15 days
Use Cases	Full stack: chatbot, receptionist, CRM, support, workflows, AI agents
Monthly Support	\$500/month
Included Tickets	40/month

Recurring Per Client

This single table now works for every tier automatically:

<i>Active Clients</i>	<i>Discount</i>	<i>Tier 1 (\$300 base)</i>	<i>Tier 2 (\$400 base)</i>	<i>Tier 3 (\$500 base)</i>
1	0%	\$300	\$400	\$500
2	10% off	\$270	\$360	\$450
3-4	20% off	\$240	\$320	\$400
5-7	30% off	\$210	\$280	\$350
8-10	40% off	\$180	\$240	\$300

The discount bracket applies to all active clients once reached e.g., a partner with 5 clients pays the 30%-off rate on all 5 clients, not just clients 5-7. The rate is re-evaluated as your active client count changes.
